RE: Site Planning Site Development

To Whom It May Concern:

This letter comes to you as a strong recommendation for Site Planning Site Development as your next landscaping provider. We began working with SPSD two years ago to manage the landscaping services at several of our commercial retail properties in the DFW area.

At the time we were entering into the agreement, we had recently completed a major redevelopment and significant landscaping upgrades at a property in Fort Worth. Vestar was looking for a new vendor to uphold the new standards and maintain our landscaping to a specular level. We found that in SPSD!

Site Planning Site Development is very responsive and the on-site porter provides amazing service. Our proactive account manager provides suggestions, notifies us of issues to be addressed and is always accessible for a quick chat or an in-depth meeting. Their knowledgeable and professional management team has been a tremendous asset to our development. Our General Manager, Max Holderby states "Site Planning Site Development is the best landscapers I've worked with since I started in real estate back in 1969."

We feel confident that you will find great success in Site Planning Site Development. If you would like more details, please contact me at 817-810-9076 or via email at shollignsworth@vestar.com.

Sincerely,

Stacy Hollingsworth
Property Manager
